

Finding Clarity

An introductory workshop series based on Jeru Kabbal's teachings/Level 1 + 2

You most likely have experienced the Quantum Light Breath. Isn't it time now to explore deeper waters/higher horizons of your being?

Easily! Gracefully!

The subconscious mind is 95% of the mind- or even more. If it is conditioned with a negative belief, like, *"Life is Hard,"* then life will look and feel hard. The subconscious is still running the same programs we put in it as infants. We are already excellent manifestors. The reason we don't get everything we want is that subconsciously we are afraid to get it.

We actually prevent ourselves from getting it. In these workshops, you will learn how to access old, negative beliefs about yourself and the world that have kept you stuck in the past and transform them, so that life can be lived from a state of joy, love and awareness.

We will teach specific, easy to use, yet powerful techniques, including use of the Pendulum and the Quantum Light Breath (QLB)- including so far unpublished versions, a process designed by Jeru, which clears blocks and accelerates personal transformation.

These workshops are for everyone who is drawn to live life beyond old conditioning-and Find Clarity.
